Live Healthy Napa County Partner Meeting August 8, 2016

Introductions

- ❖ Overview of Today's Agenda

Announcements

❖ Family Justice Center

- Approximately 30 different Family Justice Centers exist around the nation, mostly in California.
- After being awarded a grant from the Gasser foundation a planning meeting was held in July of this year to discuss the possibility of having a family justice center here in Napa and what that would look like for our community.
- We had many sectors represented in the meeting including members from family centers, HHSA and the survivor community.
- The social justice center would have a broad focus as opposed to a strictly criminal justice system focus, with the possibility of having a mobile community center that can serve the valley.
- Consultants will be generating a report for this project.

❖ Housing Summit – Next Steps

- Planning group is now forming for the next steps
- Survey to be sent out to help with planning the interactive portion of the next housing summit
- We are planning to have the summit in the fall, late September or Mid October
 - Outcome to depend on the answers to the survey and the forming of the planning group

❖ Accountable Community for Health – Next Steps

- We were not awarded the grant from the California Accountable Communities for Health Initiative (CACHI), but we are poised to continue the work outlined in our grant proposal.
- Moving forward, we are creating 3 committees to work on various parts of the ACH:
 - Governance – this committee would look at the structure of the ACH and the governance of a wellness trust.
 - Data – to aggregate the data gathered, data sharing, and use of the data to meet the requirements of forming the ACH.
 - Sustainability – to determine the funding sources and the long term process of creating the ACH and beyond.

❖ Call to action on Housing and Homelessness'

- Downtown neighborhood meeting to discuss next steps in addressing homelessness on Tuesday, August 9th 2016.
- Meeting will take place in the Napa County Library Community Room - 580 Coombs Street
- LHNC Partners are encouraged to participate in giving feedback to the City Council during the pre-planning stages of the Tulocay housing project
 - Some questions for follow-up from the Partners were:
 - What is the percentage of housing that is required to be provided for low income housing?
 - Can we ask questions at the City Council meeting to find out more information about what the project is?
 - Partners would like to inquire and gather more information about the project.

❖ Other Announcements

- No other announcements

Community Health Initiative (CHI) Presentation

- ❖ CHI is a nonprofit with a focus is to work with children and their families on how to obtain affordable health insurance, and access to affordable care; the goal of CHI is to have every child covered.
- ❖ In year one CHI extended the outreach services to include coverage services to Parents of children, in year 2 CHI is extending the project to seniors to ensure that the senior population has health and dental coverage.

Live Healthy Napa County Partner Meeting August 8, 2016

- ❖ Not having health care coverage services is a Social Determinant of Health (SDOH). When viewed from the lens of SDOH the project outcomes seek to ensure that people of all ages in Napa County have affordable health coverage and access to quality healthcare.
 - This presentation focused on the senior population and access to affordable dental and vision services.
 - A 2007 study found that 49% of adults had trouble paying for dental coverage and 35% had difficulties paying for glasses.
 - A 2007 UCLA study estimated that a total of 34,000 Napa County residents did not have dental insurance in the previous year.
 - In 2014, research showed that 35% of children had difficulty paying for eyeglasses.
 - There is a provider network that exists here in Napa. 5 local dental providers that take Denta-Cal insurance
 - One of the barriers to getting people covered is due to language; some individuals do not have the opportunity to work with someone in their human resources department that is fluent in Spanish.
 - Much growth has come by partnering with the schools to keep the children covered.
 - Many clients are purchasing the supplemental dental insurance.
 - To date 19,000 people enrolled
 - Over 90% of children in Napa County had some kind of coverage; for school age children this is estimated at 97%..
 - 120 application assisters are trained in at least the basics of filling out the forms to get services. During the survey CHI calls to offer assistance in renewals. This follow up process enables CHI to have an exceptional retention rate. Renewals that are continued are considered retention. CHI performs the retention calls, during year one there are two contacts with one contact per year for each year following.
 - Retention barriers include individuals who move, relocate, and/or loss of packet, divorce, tragedy, and behavioral health issues. Tracking only includes if the individual renewed or not.
- ❖ Increases in health coverage costs statewide will be 13.2%
- ❖ Increases in health coverage costs locally in Napa will be 12%, CHI will need the assistance of agencies to help in supporting continued coverage and assisting in educational notifications for the community.
- ❖ CHI is located at 2140 Jefferson street Suite D

Social Determinants of Health

- ❖ Unnatural Causes – Place Matters
 - 10 min video clip from Unnatural Causes
- ❖ Public Health – Place Matters Interactive Map of Napa County
 - The issues that are prevalent in other areas of the country are also present here in Napa
- ❖ Discussion
 - Increase in cost and taxes (poverty tax) - paying more in low income areas
 - Check cashing spiral, getting into debt not realizing that the quick loans are not an answer
 - 10% of annual income goes into check cashing
 - How much one thing can affect the whole area, the Safeway closure now creates a food desert.
 - Possible solution: mobile food shopping for fresh vegetables (Aware that there are Health code barriers to this solution)
 - Social connections with community trade/bartering for food items

Live Healthy Napa County Partner Meeting August 8, 2016

- Building and planning – health matters, having the health aspects built into the environment keeping in mind the interconnections to the community, keep it walkable, healthy and low traffic risks
- Talking with planners, getting involved and keeping the health implications at the forefront of the discussion. The pieces of community where we can advocate to make the connections with regards to built environment.
- Discussed the implications of not having a great interconnected transit system
 - Obesity
 - Congestion
 - Commute traffic
 - Air pollution
 - Loss of community
- ❖ **Talking points for homelessness available to the group**
- ❖ **It is important to bring the messages to policy makers, and to bring our clients and service members into the conversation so that it is not only policy makers having a say in the final decision making about the situations and circumstances for our clients and community members.**
- ❖ **Building up the community, empowering to put the pieces together to have the community voice heard.**

Meeting Plus – Deltas

- ❖ **Not discussed at this meeting**

ACTION ITEMS – Follow Up

- ✚ Downtown Neighborhood Meeting on Tuesday, August, 9 2016 6:30-8p.m.
- ✚ August 16th City Council Meeting
- ✚ Role of LHNC to communicate opportunities for community member participation in decision making
- ✚ Director of County Planning - invitation to LHNC meetings
- ✚ Director of City Planning - extend invitation to LHNC meeting

Next Meeting

- ❖ **October 10, 2016 – Collabria Care 414 S Jefferson St, Napa, CA 94559**
